

**TECHNICAL DATA SHEET**

Revision date: 02.10.2022

**AIR CON CLEANER PROFESSIONAL**

<b>Article number:</b>	<b>49743</b>
<b>Colour:</b>	no colour
<b>Intended use:</b>	Cleaning agent/ cleaner
<b>General characteristics:</b>	Clean and condition the air conditioning of the car with Chamäleon Air con cleaner professional. The foam ensures that the air conditioning of the car is clean again. It provides a subtle scent as well as a lasting prevention of odors.
<b>Quality &amp; properties:</b>	<ul style="list-style-type: none"><li>▪ effective cleaning foam</li><li>▪ improves the functioning of the air-conditioning.</li><li>▪ subtle scent</li><li>▪ removes dust, bacteria and fungi</li></ul>
<b>Physical &amp; chemical data:</b>	
<b>Base:</b>	tenside solution
<b>Surfaces:</b>	air conditioning
<b>Minimum working temperature:</b>	10 °C
<b>Maximum working temperature:</b>	25 °C
<b>Vapour pressure:</b>	3500/20 bar
<b>Relative density:</b>	0.967 g/ml
<b>Storage stability:</b>	10 years
<b>Content:</b>	500 ml

**Application process:**

Before use, carefully read the instructions on the packaging and act accordingly.

The aerosol should have room temperature.

Best processing temperature 10 to 25°C.

Before use, shake the aerosol.

Before treatment, switch off the engine and the electrical installations.

Apply the foam to the evaporator of the air conditioning by means of the enclosed adapter. Insert the adapter about 30 centimeters into the air inlet of the air conditioning and completely empty the can.

- The location of the air inlet differs per brand, consult your dealer.  
After applying, do not switch on the engine or the electrical system of the car for at least half an hour.  
During this half hour, the foam will break down and leave the system through the condensed water outlet as a fluid.

This release replaces all eventually earlier issued versions.
